The amendment dated 4/4/07 has been considered with the following results:

Claim Objections - 37 CFR 1,75(a)

1. Claim 23 is objected to under 37 CFR 1.75(a) for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 23:

It is unclear from the claim why a portion of the optical recording medium is discriminated by a recording area discrimination unit since it has never been used later in the claim. Applicant is suggested to insert a statement --and being controlled based on the portion detected by the recording area discrimination unit-- after the term “diffraction grating”, line 12, in order to clarify the objection above.

Allowable Subject Matter

2. Claims 1-22 are allowable over the prior art of record.
3. Claim 23 would be allowable if rewritten or amended to overcome the objection(s) to under 37 CFR 1.75(a), set forth in this Office action.
4. Claims 1-7 and 15-22 are allowable over the prior as for the reasons given by applicant in the Remarks. Claims 8-14 are allowable over the prior art of record for the same reasons previously given in the Office action mailed 1/4/07. Claim 23 is allowable over the prior art of record because the prior art of record, considered alone or in combination, fails to suggest or fairly teach an optical pickup device including a combination of: a recording area discrimination unit, a diffraction unit and their functional operations and structural arrangement, as recited in claim 23.

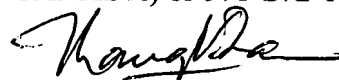

5. This application is in condition for allowance except for the objection to 37 CFR 1.75(a) above. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
